

16.4 Defects: Homework

Each student runs the test cases from the previous HW. If there are no defects, do some exploratory testing around your test cases.

API: User and Role - Nina Kh.

The screenshot shows the 'Test Execution Lab' interface for 'MTI 2023'. The left sidebar contains 'Test Design', 'Test Execution Lab' (selected), and 'Project Settings'. The main area displays the details of a test execution titled 'M20-TRI23 - API. User and Role test execution'. The 'DETAILS' tab is active, showing the title, description, activity comments, and test run status. The 'Test Run Status' is 'Not Started'. The 'Planned Start Date' and 'Planned End Date' are both 'Click to add a value'. The 'Responsible - Owner' is 'student.mti.2023'. The 'Tester(s)' is empty. The 'Created At' date is 'January 8, 2024 4:25 PM'.

The screenshot shows the 'Test Execution Lab' interface for 'MTI 2023'. The left sidebar contains 'Test Design', 'Test Execution Lab' (selected), and 'Project Settings'. The main area displays the 'TEST CASES' tab, showing a table of test cases. The table has columns for ID, Title, Steps, Overall Result, Execution time, Executed by, and Traceability. There are 4 test cases in total, with 2 PASS and 2 FAIL. The 'Overall Result' column shows a green bar for PASS and a red bar for FAIL. The 'LIST' button is visible in the top right corner.
