11.4 Web UI: Homework

- Create your personal web page with the following elements:

  - Your first and last name - a header 1

  - Your photo

  - A QA position you want to get - a header 2

  - A list of brief information about your experience - regular text

  - All styles should be saved in *.css files

  - A link to your LinkedIn profile (or other resource with your CV)

  - A button "Contact me": when a user clicks this button, a message with your email is shown

- Expected format: *.html file

The result contains 2 files:

<h3>About me:</h3>

Experienced professional with a background in diverse industries, including FinTech and
medical device manufacturing. 

<br>Applied Informatics in Economics graduate, I began my career in 2007 in FinTech as a
QA Engineer and later transitioned to System/Business Analysis.

<br>During my 4,5 years in software companies focused on banking solutions, I specialized
in payment cards, acquiring, and processing.

<br>Then relocated to Israel.

<br>I embraced a new challenge in Quality Control for medical devices for 4 years.

<br>I dedicated the last 6 years to Quality Assurance in medical device manufacturing.

<br>Currently, I am returning to my roots in Software Quality Engineering. Actively
enhancing my skills at a professional QA school with mentors boasting with 10 to 20+ years
of practical experience in Tech.

<br>Committed to continuous growth in the dynamic field of Quality Engineering.
